**POWERSMART**

Engineered to be ultra quiet for the great outdoors – there's no better portable generator for your on-the-go hobbies and leisure time. You get all the power quality and safety you'd expect from our compact, lightweight PowerSmart Series™ Inverter Generators.

**P2000**

Power Output*	Sound**	Run time	Weight
1600 - 2000W	59dB	6.30Hrs	24Kg

**PERFORMANCE**

Starting (W)*	2000
Running (W)*	1600
Voltage / Frequency	230V / 50Hz

**FEATURES**

Noise level at 7m @ 25% load**	59dB
Run time @ 25% load	6h 30min
Consumption @ 25% load	0.6l/h
Automatic low-oil shut down	Yes
Circuit breaker	Yes
Portability	Twin carry handle
Weight (kg)	24
L x W x H (cm)	52 x 35 x 43
Warranty	2 years limited consumer***

**SOCKETS**

Household sockets	2x 230V / 16 Amp
Battery charging sockets	1x 12V DC

**ENGINE**

Engine type	4-stroke OHV
Engine capacity	111cc
Fuel tank capacity (l)	3.8
Starter	Recoil

\* Wattage rated in accordance with PGMA (Portable Generator Manufacturers' Association) standard PGMA G200-2013, Standard for Testing and Validating Performance of Portable Generators.

\*\* Noise level at 7m @ 25% load

## P3000

Power Output*	Sound**	Run time	Weight
2600 - 3000W	58dB	10Hrs	38Kg

### PERFORMANCE

Starting (W)*	3000
Running (W)*	2600
Voltage / Frequency	230V / 50Hz

### FEATURES

Noise level at 7m @ 25% load**	58dB
Run time @ 25% load	10h
Consumption @ 25% load	0.6l/h
Automatic low-oil shut down	Yes
Circuit breaker	Yes
Portability	Telescopic handle, rear back handle, integrated wheels
LCD Statstation™	Yes
Weight (kg)	38
L x W x H (cm)	66 x 35 x 53
Warranty	2 years limited consumer***

### SOCKETS

Household sockets	2x 230V / 16 Amp
Battery charging sockets	1x 12V DC
USB port	Yes
Parallel connector kit	Yes (Optional)

### ENGINE

Engine type	4-stroke OHV
Engine capacity	171cc
Fuel tank capacity (l)	5.6
Fuel gauge	Yes
Starter	Recoil

\* Generator per PGMA (Portable Generator Manufacturers' Association) standard ANSI/PGMA G300-2015, Safety and Performance of Portable Generators.

\*\* Noise level at 7m @ 25% load

A good night's sleep in the great outdoors is not always easy with all the noise, but we can make it better for you. Our ultra quiet sound dampening mechanics make this series of inverter generators an ideal outdoor leisure companion. The PowerSmart Series™ is low noise and low maintenance as standard; soundless sleeping will never be an issue again.

**Ultra quiet by design.**

There's no escaping the necessity of digital electronics these days, even out in the wilderness. Our PowerSmart Series™ Generators are safe to use with laptops, televisions and mobile phones. Clean and pure sine wave power output will prevent your devices from the damage of overcharging. Thanks to the intelligently designed system, PowerSmart Series™ delivers the exact amount of power the charging devices need.

**Clean power for sensitive electronics.**

**Double up for double the power.**

Teaming up your PowerSmart Series™ Generators can give you all the power you need for ultimate efficiency. Connecting two generators with a parallel cable could not be simpler, and you sacrifice none of the benefits that come with each individual PowerSmart Series™ unit – you are always in complete control of your desired power between two systems. The parallel kit can be purchased separately to connect your P3000 Inverter Generators.

**All-in-one connectivity.**

We believe portable power should never let you down, which is why we engineer all our generators to be as durable and efficient as possible. You need consistent power at all times, especially if your power needs include devices from a busy life, such as televisions and mobile phones and tablets. With a single control panel, you can easily charge any kind of device with adaptors ranging from household sockets, a 12V battery charging socket and a USB port. The LCD StatStation™ informs you of the amount of power being used and reminds you when it is time for maintenance.
